

# Lined Spiral and Fittings

## SUBMITTAL SHEET

- Circle Lined Pipe is a molded, round fiberglass insulated pipe for heating and air conditioning systems. Lining is available plain or factory installed in a wide variety of pipes and fittings.
- CICLINER provides the most efficient and economical method of internally lining of round, metal ducts or pipes to control heat gain or loss, and to reduce noise level.

### TECHNICAL INFORMATION

- **Thermal Conductivity**

.23 BTU at 75° 11/2" "C" = 0.15 "R" = 6.67

- **Sound Absorbtion**

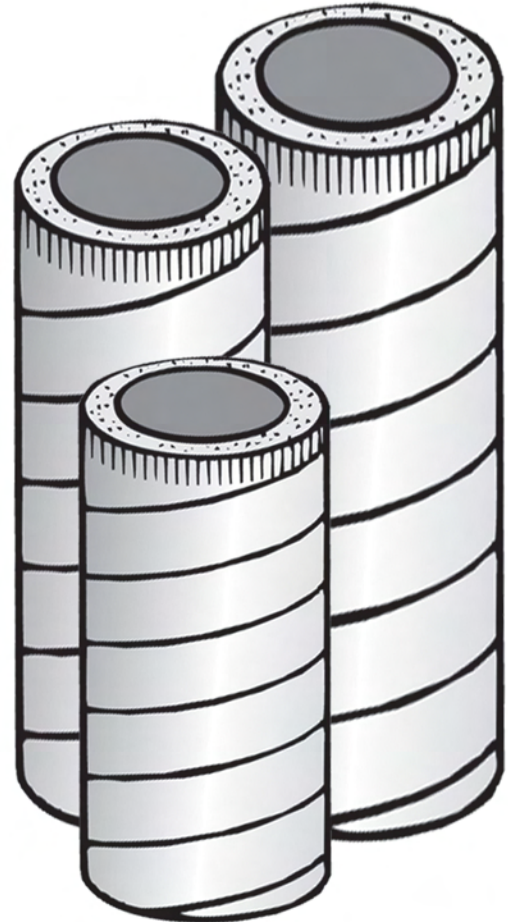

125	250	500	1000	2000	4000	NRC
.32	.60	.82	.98	.99	.89	.85

- **Fire rating per U.L test 723**

Flame Spread	-20
Fuel Contribution	-5
Smoke Development	-5

- **Air Erosion**

None at low and medium velocities up to 2400 feet per minute established by actual tests.
